

Phone sex

SUGGESTED WORDS FOR EIGHT-YEAR-OLDS & OVER

1. This is a phone sex line. It costs a lot, and the only people who can use it are people who can pay the bill. It's for grownups.
2. Women on the line talk about sex, and they try to keep the caller talking for as long as possible. Sometimes, they pretend that they will meet the caller in person, and keep leading them on until the phone bill is quite big. For them, it's a business.
3. Why do people use it? Some people don't have a girlfriend or boyfriend, and they get some kind of satisfaction from hearing people talk about sex, and by talking about the kind of sexual activities they would like to have.

Internet sex chat

SUGGESTED WORDS FOR EIGHT-YEAR-OLDS & OVER

1. Some people use the internet chat rooms to talk about sex. And some try to get others to answer them, and chat with them about sexual activity. But that's for grownups, not children.
2. Some people will want to show internet pictures of themselves, or want you to show them pictures of yourself trying to look sexy. It's a bad idea. They may think you are actually ready to have sex with them, and try to contact you in person. Or they may show your pictures to a lot of other people.
3. Don't use the net to chat about sexual activity. Some adults do, and it's something you might decide to do when you are grown up. At the moment, you are too young for this.
4. If you are chatting, and someone is using bad language, or putting remarks about their body or your body into the chat room, show me. We'll discuss what to do about it.

Self-generated pornography

Young people are making their own pornography, using the internet, or video cameras, or mobile phone pictures. They show themselves or others in various kinds of undress, or during actual sexual activity.

This use of the internet or mobile phones or cameras has the potential to cause a lot of harm, to the child's reputation, if nothing else. It also opens them to being sought after as a sexual partner, either by age-mates, or by others who get hold of the images. Some young people are secretly filming others, either as a 'joke' or for malicious bullying purposes.
